IRDAI overhauls health cover norms to empower policyholders

SEAMLESS EXPERIENCE. Insurers to provide cashless authorisation within one hour and final authorisation within 3 hours of intimation by hospital

G Naga Srihar
Hyderabad

In a move to empower policyholders and bolster inclusive health insurance, the Insurance Regulatory and Development Authority of India (IRDAI) has announced major revamp of regulatory norms.

The regulator has issued a comprehensive Master Circular on Health Insurance Products, repealing 55 circulars.

The circular gives operational effect to a slew of regulatory changes announced by IRDAI last month in health coverage, including the removal of the upper cap on age and brings in new features such as a customer information sheet to provide transparency and

the option to distribute claim amounts from multiple policies one may have from different companies.

All the entitlements in a health insurance policy available to a policyholder have been brought into one place in the Master Circular.

The repeal of previous circulars has been done to provide for new norms and to make a single-point reference on the total norms for policyholders as well as insurers.

AFFORDABILITY

It also emphasised measures towards providing a seamless, faster, and hassle-free claims experience and ensuring enhanced service standards across the health insurance sector.

The major norms spelt

NO CLAIM PERKS. According to new norms, if no claims are made, insurers might offer policyholders a no-claim bonus, which can either increase the coverage amount or lower the premium.

out by IRDAI include a wider choice for the policyholders by offering diverse insurance products catering to all ages, regions, occupational categories,

medical conditions/treatments, and all types of hospitals and health care providers.

This is aimed at providing suitability and affordability. Insurers will also need to provide a Customer Information Sheet (CIS) with every policy document.

Customers are also to be provided with the flexibility to choose products, add-ons, or riders as per their medical conditions/specific needs.

A policyholder with multiple health insurance policies gets to choose the policy under which he/she can get the admissible claim amount.

"The primary insurer with whom the claim is first submitted should co-ordinate and facilitate settlement of the balance amount from the other insurers," IRDAI said.

In the event of no claims during the policy period, the insurers may reward

the policyholders by providing an option to choose a No Claim Bonus, either by increasing the sum assured or discounting the premium amount.

Policyholder to get a refund of the premium/proportionate premium for the unexpired policy period if he chooses to cancel his/her policy at any time during the policy term.

Policyholders will gain significantly in the wake of new norms, according to in-

dustry experts. According to Sharad Marth, Managing Director & Chief Executive Officer of Universal Sompo General Insurance, the master circular issued by IRDAI "will simplify the insurance buying and servicing process even further."

"Newly introduced measures such as the processing of cashless authorisation requests within one hour, the freedom to choose treatment of choice, including Ayush-certified therapies, and the choice of adjusting the No Claim Bonus by discounting future premiums or increasing the sum assured are bound to delight existing policyholders," he added.

Anuj Pareek, co-founder and CEO of BharatSure, said the norm for insurers to provide cashless author-

isation within one hour and final authorisation within 3 hours of intimation by the hospital will make the process more efficient and can significantly improve the customer experience for the patient and their family members.

Narendra Bharadwaj, Vice-President of the Insurance Brokers Association of India (IBAI), said the Master Circular outlines several key points for health insurance policyholders and insurers, such as the right to a policyholder to seek a refund of premiums for the unexpired policy period if they cancel their policy early.

"The aim is to achieve 100 per cent cashless claim settlements and streamline the health insurance process," he added.

'Some ARCs are using innovative ways to circumvent regulations'

Our Bureau
Mumbai

Some asset reconstruction companies have been found to be using innovative ways to structure transactions to circumvent regulations, according to Swaminathan J, Deputy Governor, Reserve Bank of India.

"During our onsite examinations, we have come across instances where ARCs have been used or allowed themselves to be used, if I may say so, as a conduit to evergreen distressed assets. In many cases, there is a lack of transparency and consistency in the issuance and periodical valuation of security receipts (SRs). The practices surrounding the levy of management fees leave much to be desired," Swaminathan said during a recent speech that was uploaded on the RBI website on Wednesday.

REGULATORY EVASION

The Deputy Governor also observed that a few entities find new ways of achieving their designs once a particular practice has been called out as a violation or deviation. "Whenever we had directed to our notice, we had detected the entities to arrange for remediation,

including setting aside capital charge on gains thereon but only responsible conduct by the supervised entities themselves can bring the required efficiency to the system. In extreme cases, it may call for regulatory or supervisory actions, which of course we would like to use only as a last resort," he cautioned.

With regulations shifting towards a more principles-based approach, supervision is required to focus more on the substance of transactions than their legal form. He added that supervisors, instead of relying on the technical compliance presented by the management, may have to scrutinise the economic purpose and the underlying unstated intent behind the transactions, he added.
